

<p>Poland: Sustainable Good Practice</p> <p>Type of Business: Agritourism Farm</p> <p>Name of Business: Gutkowa Koliba</p>
<p>Description</p> <p>Gutkowa Koliba is an eco-tourism accommodation located in the Bieszczady Mountains of Poland. The accommodation consists of traditional cabins made from natural materials, providing visitors with a unique and authentic experience of living in the wilderness. The cabins are designed to be environmentally friendly and sustainable, using renewable resources and traditional building techniques.</p>
<p>Sustainable and Regenerative Practices</p> <p>Gutkowa Koliba is committed to implementing sustainable and regenerative practices in its operations, aiming to minimize its environmental impact and promote the health and vitality of the surrounding ecosystem. Some of the practices include:</p> <ul style="list-style-type: none"> • Renewable Energy: The cabins are equipped with solar panels, which provide electricity for lighting and other basic needs. • Water Conservation: Gutkowa Koliba uses rainwater harvesting systems to collect and store water for daily use. The water is then filtered and treated for drinking and other purposes • Waste Reduction: The cabins are constructed using natural, biodegradable materials that can be easily recycled or composted. The accommodation also implements a waste management system, including recycling and composting, to reduce the amount of waste sent to landfills. • Regenerative farming: Gutkowa Koliba has a small regenerative farm that uses organic farming practices to produce fruit, vegetables and herbs. • Education and outreach: the accommodation offers educational programmes and workshops on ecology, sustainability and regenerative practices. • <p>By implementing these sustainable and regenerative practices, Gutkowa Koliba is able to provide guests with an authentic and eco-friendly experience.</p>
